

# Nasywan Damar Fadhila

## Frontend Web Developer

Klaten, 57455 • +6285643094917 • [nasywanfadilah@gmail.com](mailto:nasywanfadilah@gmail.com) • [linkedin.com/in/nasywandf](https://linkedin.com/in/nasywandf) • [github.com/MastayY](https://github.com/MastayY)

## PROFILE SUMMARY

---

Accomplished Frontend Developer experienced in building responsive web applications using Next.js, React.js, TypeScript, ShadCN, and TailwindCSS. Proven competitive ability by achieving 3rd place in two national-level software development competitions. Proven ability to deliver end-to-end frontend solutions for a variety of web application projects, from concept to deployment. Enthusiastic about applying expertise in UI/UX development and API integration to create impactful digital products. With a curious and adaptive mindset, I am eager to explore new technologies, expand my knowledge, and collaborate on innovative projects that push the boundaries of web development.

## PROJECTS

---

### KARDIA | Heart Disease Risk Analysis Platform

Tech Stack: React JS, TypeScript, TailwindCSS, ShadCN, Bun

- Developed and launched an interactive user interface (UI) for an early detection platform for heart disease risk, based on the SCORE2-APAC calculation model.
- Implemented a responsive design ensuring full functionality across various devices, from desktop to mobile.
- Contributed to the frontend architecture and selection of ShadCN components to accelerate development.

[Live Demo](#) | [Github Repository](#)

### LokaKarsa | Interactive Javanese Script Learning Platform

Tech Stack: React JS, TailwindCSS, ShadCN, Bun

- Designed and built a gamified web application for learning Javanese script, inspired by Duolingo, to enhance user engagement.
- Developed interactive writing exercises and quiz features using React.js to provide a dynamic learning experience.

[Github Repository](#)

### Organization Management System | Internal Information System

Tech Stack: Laravel 12, React JS, Inertia JS, TailwindCSS, ShadCN

- Built a full-stack organization management system featuring member management, event scheduling, and an integrated notification system.
- Responsible for developing frontend components using React and Inertia.js connected to a Laravel backend.

## EXPERIENCE

---

## AMCC (Amikom Computer Club)

November 2024 – Present

### *Coordinator of Web Programming Division*

- Led and coordinated the web programming division, organizing training for AMCC members on technologies like HTML, CSS, JavaScript, PHP, and the Laravel framework.
- Planned and strategized activities to enhance the knowledge and skills of members in the web programming division.

## Competition of Developer 2024

Mei – Agustus 2024

### *Secretariat Division Member (KSK)*

- Contributed to the technical team to build and launch a national seminar website using HTML, TailwindCSS, and AlpineJS.
- Collaborated with the design team to ensure consistent UI/UX implementation across digital platforms.

---

## COMPETITION ACHIEVEMENTS

### 3rd Place Winner, Software Development Category

ITENAS Digital Transformations Competition (IDTC) 2025, ITENAS Bandung

### 3rd Place Winner, Software Development Category

Infinitera 1.0, HMTIF UNISSULA

---

## EDUCATION

### Universitas Amikom Yogyakarta

*Bachelor of Informatics*

Yogyakarta, Indonesia

September 2023 - Present

---

## KETERAMPILAN

### Hard Skills

- Frontend Developer (Web)
- Mastering web fundamentals: HTML, CSS, JavaScript.
  - Experienced with modern frameworks: React.js, Next.js, and TailwindCSS.
  - Proficient in Git & GitHub for version control and collaboration.
  - Skilled in API integration for backend communication.

### Soft Skills

- Teamwork
- Creativity
- Attention to detail
- Eager to Learn

### Bahasa

- Indonesian (Native)
- English (Intermediate)
